MS x5M KLS

PV-Modul

- 30 Watt power recharge the battery fully within 4-8h
- typ. lifetime: 25 years

Battery

- application from -40°C up to +85°C
- 80Ah ensure up to 4 days of lighting
- typ. lifetime approx. 13 years - easy to be replaced

intelligent control system

- ensures high illumination level at peak times, even in bad conditios

housing

- IP65
- dimensions: approx. 460x170x600 mm
- mounting: $\varnothing$ 60 mm

patented LED-technology

- ensures an extremely high light output (149 lm/ Watt) and thus a bright and safe lighting!
- application from -30°C up to +60°C
- typ. lifetime: 100.000h
